

USE OF METAL DETECTORS

(Reasonable Suspicion)

When the school administration has reasonable suspicion to believe that weapons are in the possession of an identified student, the administration is authorized to use a mobile metal detector to search the student. Any search of a student's person as a result of the activation of the detector will be conducted in private and in accordance with the policy on personal searches. Only school personnel who have been trained in the usage of metal detectors, law enforcement officers assigned to the school corporation, or school resource officers shall operate the metal detectors under the direction of the administration.

USE OF METAL DETECTORS

(Administrative Search)

In view of the escalating school violence, the potential presence of weapons in our schools, and the school corporation's duty to maintain a safe learning environment, the Board of School Trustees authorizes the use of metal detectors to check a student's person or personal effects. Only school personnel who have been trained in the usage of metal detectors, law enforcement officers assigned to the school corporation, or school resource officers shall operate the metal detectors under the direction of the administration.

School officials or law enforcement officers may conduct metal detector checks of groups of individuals if the checks are done in a minimally-intrusive, nondiscriminatory manner. Metal detector checks of groups of individuals may not be used to single out a particular individual or category of individuals.

If a school official or a law enforcement officer has reasonable suspicion to believe that a particular student is in possession of an illegal or unauthorized metal-containing object or weapon, he or she may conduct a metal detector check of the student's person and personal effects.

Notice of the Board policy and procedures on the use of metal detectors will be sent to parents and students and posted on the websites of the school corporation and of each middle and high school.

The Superintendent shall develop procedures for implementing this policy. The metal detector checks will be done only in accordance with the provisions of the Board policy and procedures by school personnel or law enforcement officers under the supervision of the school administrator.

USE OF METAL DETECTORS -- PROCEDURES

The following procedures for the use of metal detectors in the schools are developed pursuant to Board policy on the Use of Metal Detectors. The Superintendent may modify or expand these procedures in any manner consistent with the Board's policy.

A notice will be posted in a central location at each middle and high school stating that weapons are not permitted at school and that students may be required to submit to a metal detector check. In addition, the metal detector policy and these procedures will be included in the student handbooks for each middle and high school. Notice of the Board policy and procedures on the use of metal detectors will be sent to parents and students of each middle and high school on a regular basis throughout the school year. A notice must be sent out before the beginning of school and at least once per semester during the school year. The superintendent will determine the specific dates when the notice will be sent out throughout the school year.

Metal Detector Random Checks

- A. A principal may decide to conduct a random metal detector check on all students before entering the school at the beginning of the school day, or he or she may select a group of students to be checked at random on a neutral, nondiscriminatory basis. The group selected for a random check may be a classroom(s), a bus(es), or any other group of students determined by the principal in accordance with these procedures and board policy. Metal detector checks of groups of individuals may not be used to single out a particular individual or category of individuals.
- B. Before conducting the metal detector checks, the participating administrator or law enforcement officer ("officer") will explain the scanning process to students, emphasizing that the checks are intended to maintain safe schools.
- C. An administrator or officer will escort each student with his or her personal effects into a designated area to proceed with the metal detector check. An adult will closely observe students to make sure no objects are removed from pockets or personal effects.
- D. The administrator or officer will ask the student to remove all metal-containing objects from his or her clothing and personal effects. The administrator or officer will then scan the student without touching his or her body and scan the outside of the student's personal effects. The metal detector scan of the student's person will be done by an adult who is the same sex as the student. If the student refuses to cooperate, the administrator or officer may proceed with the check in the presence of another adult.

- E. If the metal detector is activated during the scanning of the student's effects, the administrator or officer will ask the student to open the bag, purse, etc., and the officer will proceed to look for weapons. If the metal detector is activated during the scanning of the student's person, the student will be given a second opportunity to remove any metal-containing object from his person. A second scan will be conducted and if the metal detector is activated again, an administrator or officer of the same sex will conduct a pat-down search of the student's outer clothing in the area where the metal detector was activated. The pat-down search will be done in a private room or area and in the presence of an adult witness, when feasible. If the administrator or officer feels an object on the student's person, the student will be given an opportunity to remove the object. If he or she refuses, the administrator or officer will remove the object from the student in the presence of an adult witness of the same sex.

Metal Detector Checks of Individual Students

Before conducting a metal detector check of an individual student, the administrator or officer must have individualized reasonable suspicion that the student is in possession of an illegal or unauthorized metal-containing object or weapon. The provisions of the Board Policy regarding personal searches and the use of metal detectors shall be followed under these circumstances.

If a properly conducted search yields a weapon or any other illegal material, it shall be turned over to the proper legal authorities for disposition.
