

Technology Board Update  
December 10, 2019  
Steven Gingerich

- All projectors for High School have been delivered. Middle School should be arriving within the month.
  - We are currently working with vendors in regard to scheduling installation.
- Successfully supported ILearn Systems Readiness test for Elementary and Middle School devices. This test helps us to ensure proper network and device configuration for ILearn testing.
- Working with vendors to complete network upgrades and reconfiguration over Christmas Break. This should allow for better utilization of the network in addition to assisting with the continued decommissioning of the legacy wireless network.
- Began initial steps to pilot Apple Classroom as a potential replacement for LanSchool.
