

Technology Board Update

June 9, 2020

Steven Gingerich

- Completed device turn-in and inventory successfully.
- Converted and installed new APN certificate for Filewave, increasing security and sustainability.
- Converted all student accounts from Apple Open Directory to Microsoft Active Directory. Active Directory is better-supported and allows for better account continuity.
- Cases ordered for new 2020-2021 6th and 9th grade laptops.
- Began process of Federating TCSC's Managed Apple IDs, allowing for greater security and efficiency as well as ensuring compatibility with Apple Platforms in the foreseeable future.
- Began configuring and preparing student devices for 2020-21 school year. Including the installation of tools to better-support E-Learning and Distance-Learning scenarios.
 - Installation of Remote Desktop support software
 - Ensuring all student devices properly enrolled in DEP and Supervised by TCSC. This helps to allow for remote installation of software as needed.
