Re: Presentation of Routes where children cross state highways per SEA 2

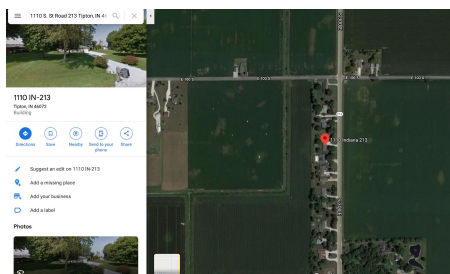

Dear Dr. Glaze and Tipton School Board:

SEA 2 Requires all routes where elementary students cross a state highway be presented to the board. Below are the routes where students cross major highways. The ages of the children and address are listed below. If there is not another option for a stop, the stop must be presented to the board. In the stops below there are not any other options for stops for these students. This year is a fluid year. As students move into the area or go from virtual to in person school, the transportation department will make the board aware of any future stops that children cross a state highway. Every effort will be made to pick children up doorside if possible.

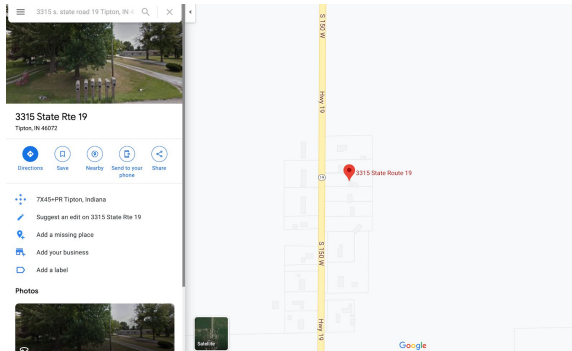

Bus number #26 Jennifer Edwards- 4570 E. State Road 28. 2 students- (A 6th grader and one a high school student.) The bus driver and parents have talked about a safety plan for these children.

Bus number # 5 Scott Cessna- 1110 S. State Road 213. This stop was presented to the board last year. This stop is in **the AM only**. There are 4 students at this stop, (8th grader, 2nd grader, 10th grader and another 2nd grader) In the afternoon, the students are dropped off at the doorside. Driver and parents have communicated a safety plan. This has been a stop for years. The parents, driver, and the students are aware of the safety hazards at this stop. Scott Cessna is a veteran driver and takes the safety of the children very seriously.

Bus Route #2 Brian Overdorf: 4 students (MS) cross PM only (3315 S. State Road 19). Bus Driver has a safety plan in place with parents and students.

Bus Route # 21 Glenn Edwards- 1 student (kg) PM only (7211 W. State Road 28 Tipton, In 46072) The mother is present to get him across the road. This is out just before Teetersburg.

I would also like to make the Board aware of the following routes that are dangerous, but do not require students to cross a major highway:

Bus Route #14 Lori Henry:

Students cross division road at three addresses

7674 W. Division rd (2 students (2nd and 8th graders)

7773 W Division Rd. (2 students, 4th,9th The Bus Driver has a safety plan in place with parents and students.

Thank you for your time and consideration in this matter.

Sincerely,

C. Scott Wessel

Director of Operations,

Tipton Community School Corporation.
