

Technology Board Update

March 9, 2021

Steven Gingerich

- Harmony SSL Certificates renewed and installed successfully.
 - Harmony updates completed to ensure compatibility with IDOE Ed-Fi
- New Tridium server installed for HVAC system. Performance Services has begun the process of migrating from the old server.
- Conducted updates for Wi-Fi controllers. Once fully implemented, this will help increase network security and overall reliability.
- Quotes for 2021-2022 Student devices received and submitted for approval.
 - Evaluating cases, materials needed.
- Securly Web Filter renewal approved and submitted. The contract is valid for 3 years.
 - Testing recent Securly updates for improved security and functionality once implemented.
- Website content migration continued by Intrado (School Messenger). Estimated completion for content migration is mid-March.
