Director of Student Services
4/13/21

Grants (High Ability, Title II, Title IV, Formative Assessment)

The high ability final report for 2019-20 has been completed and submitted.

Assessments

I am continually sending all schools updated information on ILEARN, I AM, IREAD3, ISTEP+10, WIDA, and ISPROUT.

Miss Dunham has completed all WIDA testing for English learners along with shipping all paper portions of the test. The elementary school has completed the IREAD-3 testing. Parents of students who did not pass the test have been notified concerning summer school remediation and retesting. I have uploaded testing results into the standardized testing portal of Harmony. Special education teachers who have students to test for I AM are starting their testing which opened on April 5. The middle school is preparing for ILEARN testing which will open on April 19. The high school is preparing for ILEARN Biology testing for those students who are currently enrolled in Biology. That test opens on April 19. The elementary, middle and high schools will begin NWEA spring testing on Monday, May 3.

MTSS

There is no new information.

High Ability

High Ability coordinators met on March 11. Points of discussion were the identification process, elementary, middle, and high school high ability services, the remaining monies in the 2019-20 high ability grant, monies and budget for the 2020-21 high ability grant, and available end of year high ability workshops. The elementary and middle school will complete the identification process for grades K, 2, 5, and 8 by April 23 so that parent letters can be sent by the first part of May.

Social/Emotional

There is no new information.

State Reports

I will continue to monitor state reports to keep buildings informed and to assist where needed. I have completed the membership report and have uploaded our signed document.

Mr. Gingerich is working with Harmony to update and complete what is necessary for Harmony to load data into Data Exchange. Once data begins to load, schools will be required to monitor the data and to correct any errors that might occur.

I have uploaded data for the state special education report and submitted it to KASEC. I have taken the information from KASEC, made corrections in the report and have submitted it to the state. I am now awaiting the window for sign off and for the uploading of the signed report.

Special Education

Miss Dunham sends me information regularly to keep me informed of any issues. I continue to receive information and updates from KASEC and attend coordinator meetings. I assist with case conferences as needed.

English Learners

Miss Dunham is currently testing our English Learners using the WIDA AM Access for administering the WIDA test. The testing is to be completed by March 12.

McKinney-Vento (Homeless)

There is no new information.

School Safety

There is more training that has been made available in Moodle that I will be watching for school safety specialist training.

Transportation

I participated in transportation training with Michael LaRocco from IDOE on April 7. I am working with Dr. Glaze, Mr. Leach, and Mrs. Whitesell to set up Transversa signup and training with the bus drivers on the April 16 PD day. I will be reviewing the transportation handbook and Student Ride Guide.

Other Items

I continue to help with and answer questions concerning Harmony and other day-to-day school operations.

I have been working on district and school setups in PowerSchool and watching a variety of online trainings to understand how to do these setups. I have completed the setups necessary for various uploads from Harmony.
