

Technology Board Update

June 8, 2021

Steven Gingerich

- ENA Appliance installation scheduled after-hours on June 4th. Installation of this appliance will help facilitate bandwidth upgrade.
- Installation and migration of updated Filewave server. Filewave is core to supporting the management of 1:1 devices. The updated server is far more robust, greatly increasing efficiency and reliability of software distribution, etc.
 - Filewave licensing renewal completed.
- Successfully completed the vast majority of 2020-21 Student Device pull-in. Summer School students will turn-in their devices on their last day.
 - Began imaging TMS Student devices in preparation for 2021-22 School Year.
 - THS Student device preparation to follow.
 - Began prepping THS Graduate purchased laptops. This year, nearly 25% of 2021 graduates opted to purchase their device.
- Quinton Bell hired to fill the Middle School tech position vacancy.
- PowerSchool training for Principals and Guidance Counselors scheduled for June 4th.
