

Kitchen Update June 1st 2021

Equipment

- Dan is working with vendors to assess the options in fixing the MS freezer floor

Staffing

- We have completed the year and are still in need of a few substitute employees to help with the day-to-day issues such as sickness/surgery.
- We have 2 full-time positions we are also trying to fill (assuming the pandemic restrictions ease fully)

Service

- We are seeing about 110 student meals for breakfast and lunch during our summer academic school program and were initially told about 140 students would attend, that number fluctuated a small amount, but we still are maintaining a very consistent 108+ meals for each period of service.
- We look forward to the rest of the summer school service as well as our upcoming Kindergarten Jumpstart, Teacher Academy, and Back-to-School Breakfast catering events in June and July.
