

Technology Board Update
September 14, 2021
Steven Gingerich

- Secured Tech Solutions' assessment of recycled equipment complete. Tipton will receive approximately \$65,000 for the submitted surplus equipment.
- Completed installation of 10-Gigabit fiber module in core switch, allowing for better utilization of recent bandwidth upgrades.
- Launched SchoolMessenger platform for mass communications.
- Worked with Roeing Corp. to complete installation of projector screens at High School as well as Boardroom.
 - Waiting on equipment availability in order to proceed with E-Rate Category 2 Wireless AP project.
- Launched 2021-22 Hotspot distribution for TCSC Students to help facilitate E-Learning as needed.
 - Approximately 70 of TCSC's 200 devices are currently being utilized.
