

Kitchen Update Feb 1st 2022

Equipment

- Hobart managed to repair our troublesome stand mixer in MS and the staff are quite pleased
- Various other repairs completed/in-the-works for both kitchens but seem to be achievable

Staffing

- We have one additional Full-Time hire last week, this person being hired technically puts us at “full staff” based on the newest staffing schedules we created during the shortage.
- Unfortunately, we are still down multiple employees due to illness/injury
- We currently have no substitute employees and could definitely use some

Service

- Breakfast numbers have continued to hold after adjusting how ES lines run
- Lunch numbers had a tough time recovering with the additional 5 days off in January alongside the MLK/Christmas break as we see a dip in participation normally following breaks
