

E-Learning Thoughts for School Board

It is beneficial to keep weeks with E-Learning to 4 days vs having "less short weeks" of 3 days.

- Elementary language arts/reading curriculum are set up in a 5 day unit. Teachers can easily combine 5 to 4 days but after that the week becomes too short to complete a topic/skill to its full potential.
- High School can have 2 Blue and 2 White Days for the week.

Suggestions on Dates

- Move September date to later in the month.
 - Students are still getting adjusted to school and using their devices.
 - Suggestion- Monday, September 19/26
- October- Parent- Teacher Conferences
 - Sometime before Fall Break- Oct. 7/14
- November/December Date move to Monday or Friday
 - Having e-learning on Wednesday equalized to the worst completion of work from our students. Elementary students make use of the weekends to complete the work with the help of parents if needed.
- February Date
 - If connecting to President's Day- make it the Friday before so we don't have a repeat of a middle of the week e-learning day. Both weeks become 4 day weeks- see above point.
 - Suggestion- Monday after Super Bowl.
- April Date
 - Align with Prom (Consider looking at ILearn Testing window so not to take a day away from the window)
