Grants (High Ability, Title II, Title IV, Formative Assessment)

Our Title IV grant has been approved.

Assessments

I am continually sending all schools updated information on ILEARN, I AM, IREAD3, ISTEP+10, WIDA, and ISPROUT. I continue to view required trainings as the corporation test coordinator. ILEARN 3-8 testing will open on April 18 and conclude on May 13. ILEARN Biology testing will open on April 18 and conclude on May 20. SAT alternate testing for Juniors who missed the primary testing date will open on April 13 and conclude on April 20. NWEA testing will open on May 2 and conclude on May 20.

High Ability

CogAT testing has concluded. I have disaggregated CogAT and winter NWEA data for high ability determination for the 2022-23 school year and have submitted it to Mr. Jaworski and Dr. Glaze. Decisions for high ability placement will take place in early May.

Social/Emotional

The Review360 social/emotional assessment for students has concluded in the middle school and high school. Teacher assessment of students has concluded in the elementary school. Data is available to counselors on the overall status of each school. Details are available on each student who took the assessment or who was assessed by their elementary teacher.

State Reports

The April state report window which includes the second special education report will be pulled on April 1. Clean up will be the week of April 4 with sign off being the week of April 11. July reports will be very intense as they will include 13 reports.

Special Education/English Learners

Shayla Hall sends me information regularly to keep me informed of any issues. I continue to receive information and updates from KASEC and attend coordinator meetings. I assist with case conferences as needed.

Transportation

Laurie Crawford is doing an excellent job of keeping the drivers informed of new students and any changes with students on the various bus routes. She is working to keep the routes in Traversa up to date. Drivers were to turn in any route corrections by Friday, February 25 for their February 22 eLearning day activity. Mrs. Crawford is continuing to schedule ECA transportation and is working to stay at least a month ahead on the scheduling. At present, we are able to keep up with ECA activities and cover for absent drivers, but we are stretched very thin. Laurie and I have spent a lot of time attempting to shuffle drivers in order to keep things covered. I

have completed driver evaluations and will be meeting with them for their April 22 eLearning day activity.

Other Items

I continue to help with and answer questions concerning PowerSchool and other day-to-day school operations. I am working to address issues with PowerSchool concerning its communication with DataExchange and the various state reports that will be pulled directly from PowerSchool. I am continuing to check PowerSchool for errors that need to be corrected so that it functions properly with DataExchange.

[Laurie Crawford](#) and I are participating in a PowerSchool virtual academy class on Tuesdays and Thursdays from 9:00 to 12:00 to learn about the specifics of PowerSchool.

The special education state report so far is loading into DataExchange with no problems. I will start working on the corrections of the remaining reports that will begin loading in DataExchange for July.
