

## Technology Board Update

May 10, 2022

Steven Gingerich

- 2022-23 iPad shipment delivered and inventoried.
  - Cases for iPads delivered as well.
  - TMS Teacher devices provisioned and issued to assist with increased familiarity, etc.
- Initial BrightArrow mass-notification tests completed successfully, working through any minor issues to help ensure efficient delivery of important information to all TCSC parties as needed.
  - PowerSchool access implemented for Office Staff.
- Issued communication with 2022 Seniors regarding Graduate Laptop purchase opportunity and procedure as we have done in prior years.
- Annual Technology Plan Survey completed and submitted to IDOE.
  - Completion of this survey is an eligibility requirement for many Tech-related grants through IDOE.
- Upgraded Filewave platform software to ensure proper security and functionality, especially as we begin preparing and configuring devices for the 2022-23 School Year.
