

Shayne Clark
Director of Student Services
6/14/22

Grants (High Ability, Title II, Title IV, Formative Assessment)

Nothing new to report.

Assessments

Mrs. Crawford is uploading assessment results into PowerSchool.

State Reports

I am working with PowerSchool to correct entries that are causing errors and exclusions. I have been watching IDOE webinars and will be watching PowerSchool webinars to learn more about those corrections. Attendance, Title I, Certified Employee, Certified Position, Calendar, Additional Student Information, Homebound, and Special Education Evaluation are completed and will be ready for signoff in early July. Graduation, Special Education Termination, and Alternative Education are still in need of completion. Course Completion is awaiting fixes from PowerSchool that are supposed to be downloaded by June 14 so that the data will be able to load correctly into DataExchange.

Social/Emotional

Nothing new to report.

Special Education/English Learners

Nothing new to report.

Transportation

Mrs. Crawford has modified routes in Traversa for the 2022-23 school year except for Kindergarten students. Those students will be added to routes once the PowerSchool rollover process is completed and STN numbers are assigned. Routes are being provided for drivers to Dr. Glaze for his 2022-23 pay and route information that he will be sending out on Friday, June 10.

Other Items

I continue to help with and answer questions concerning PowerSchool and other day-to-day school operations. I am working to address issues with PowerSchool concerning its communication with DataExchange and the various state reports that will be pulled directly from PowerSchool. I am continuing to check PowerSchool for errors that need to be corrected so that it functions properly with DataExchange.

[Laurie Crawford](#) and I have completed the PowerSchool virtual academy classes that were being held on Tuesdays and Thursdays from 9:00 to 12:00 to learn about the specifics of PowerSchool. We will be attending a virtual class on the 2022-23 PowerSchool rollover process on Thursday, June 9, at 11:30.

I have been working on the corrections of the remaining reports that will begin loading in DataExchange for July.
