Good Afternoon Dr. Glaze,

I wanted to follow up on our discussion a few weeks ago with a couple of items that were requested during the call. We have drafted a letter of support for the school project to acknowledge the benefits of the project and demonstrate INDOT's willingness and ability to avoid impacts with future intersection improvements. We developed a *preliminary* layout of the proposed roundabout installation at SR 19 and Park Rd that avoids impacts entirely and fits nicely within the surrounding network. I want to stress that this is a scoping level proposal that has not yet been funded and as such is subject to some change as the design is fleshed out. However, we will be sure to include these documents in the scope with direction to avoid the school improvements. If you have any questions, please let me know. Thanks!

Nathan,

Thank you for doing this per my request.

I believe it gives everyone a much clearer picture of what the future RAB will look like and its impact on the adjacent properties.

Regards,

Jane

Here is the information we got from INDOT.

Thanks,

Jen

Thanks, Bob.

Ryan- please see attached. I don't know if this will be helpful in your conversations. You will see that the prior location of the courts only shifted slightly.

Thanks,

Jen

Jen,

Attached is where the courts were originally (before the changes). This is rough as there is no scale on the drawing so its not perfect.

Thanks,

Robert Ross, PE

Hi Bob-

Any chance you would be able to overlay a rectangular on the SR 19 @ CR 200 S pdf showing where the tennis courts were before we had to move them due to the floodway and/or the traffic round a bout and send me the image?

Thanks,

Jen
