Hello Dr. Glaze,

I am writing to give you a summary of some of the items that would need to be considered when thinking about moving the Tipton Schools Tennis Courts to a new location.

The following things would need to be done or should be considered:

1. Survey of the new area may be required
2. Geotechnical report for the new area
3. Redesign the northwest corner of the site, resubmit any redesign to Indiana Department of Natural Resources and Tipton Drainage
4. Design fees for additional services due to major design change past Final Design phase
5. Potential premium construction costs due to the project being under construction
6. Study availability of parking, restrooms, and water for players. May need to bring these things to the alternative location.

It is also worth mentioning that the area we discussed as a potential alternative location is not close to the City Park and would possibly discourage public use.

Please let me know if there is anything else we can provide to help with your conversations about this topic.

Jen
