Two Big Ideas and One Focus

What is Your Why?

My Why:

- Public Education
- ALL Students Can Learn
- Teachers Are Life Changers
- An Obligation to Make the Next Generation Better Than the Last.
- Doing Good Work

What is a Why Statement from Simon Sinek

“The compelling higher purpose that inspires us and acts as the source of all we do.”

WHAT

Every organisation on the planet knows WHAT they do. The products they sell or the services.

HOW

Some organisations know HOW they do it. These are the things that make them special or set them apart from the competition.

WHY

Very few organisations know WHY they do what they do. WHY is not about making money. That's a result. WHY is a purpose, cause or belief. It's the very reason your organisation exists.

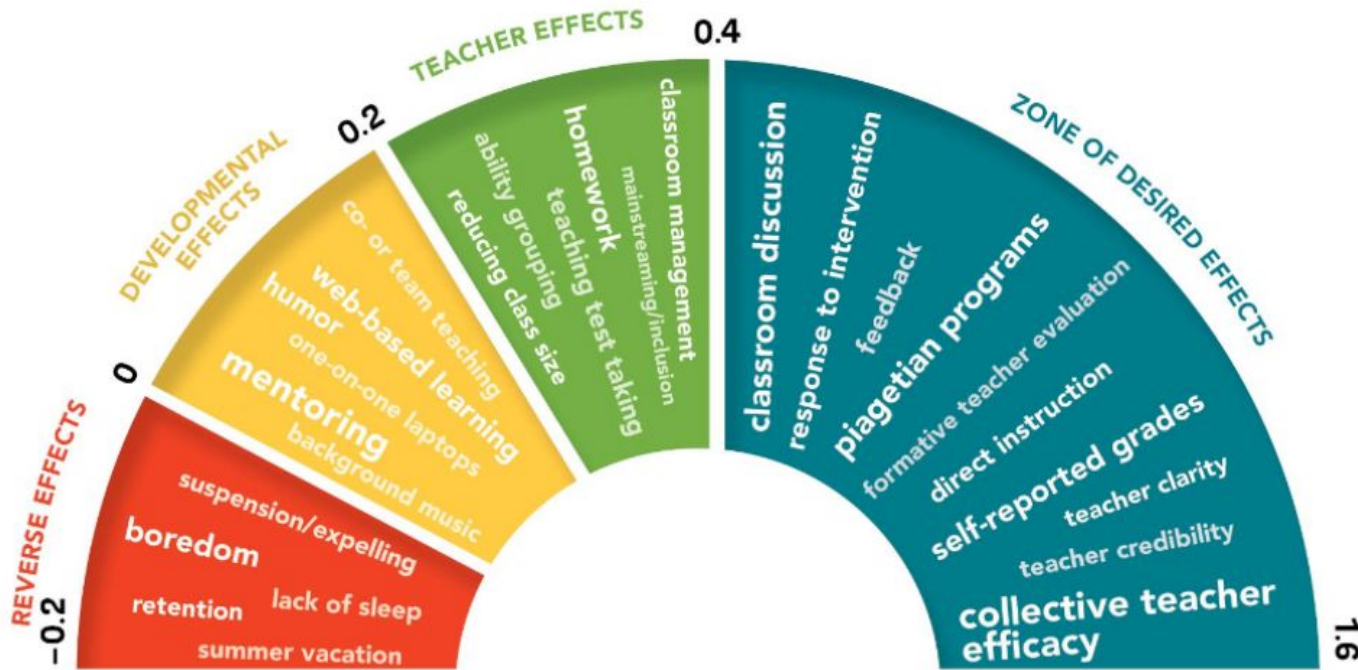

The Golden Circle

John Hattie

Professor John Hattie is a researcher in education. His research interests include performance indicators, models of measurement and evaluation of teaching and learning. John Hattie became known to a wider public with his two books Visible Learning and Visible Learning for teachers.

BEST What Works [^] in Raising Student Achievement?

What is Visible Learning

Visible Learning means an enhanced role for teachers as they become evaluators of their own teaching. According to John Hattie Visible Learning and Teaching occurs when teachers see learning through the eyes of students and help them become their own teachers.

John Hattie identified the following qualities for teachers to have, which impact student learning the most (ordered here from 1 to 6 in order of importance):

1. Are **passionate** about helping their students learn
2. **Monitor** their impact on students' learning, and adjust their approaches accordingly
3. Are **clear** about what they want their students to learn
4. Forge strong **relationships** with their students
5. Adopt **evidence-based teaching** strategies (see below)
6. Actively **seek to improve** their own teaching
