Section	Vol. 34, No. 2 - April 2022
Title	Revised Guideline - Vol. 34, No. 2 - April 2022 - STAFF TECHNOLOGY ACCEPTABLE USE AND SAFETY
Code	ag7540.04
Status	
Adopted	May 1, 2013
Last Revised	April 12, 2022

Revised Guideline

7540.04 - **STAFF TECHNOLOGY ACCEPTABLE USE AND SAFETY**

Staff members shall use School Corporation Technology Resources (see definition in Bylaw 0100) for educational and professional purposes only.

~~[] Corporation Technology Resources (see definition in Bylaw 0100) shall not be used for personal, non-work related purposes.~~

[X] Corporation Technology Resources (see definition Bylaw 0100) may be used for incidental personal, non-work related purposes that do not interfere with the employee's performance of ~~his/her~~ **the employee's** job responsibilities, do not result in direct costs to the Corporation, do not affect other users use of the resources for education and work-related purposes, do not expose the Corporation to unnecessary risks, and do not violate applicable School Board policies, administrative guidelines, or applicable laws/regulations.

Use of Corporation Technology Resources is a privilege, not a right. When using Corporation Technology Resources, staff members must conduct themselves in a responsible, efficient, ethical, and legal manner. Staff members found to have engaged in unauthorized or inappropriate use of Corporation Technology Resources and/or Information Resources, including any violation of these guidelines, may have their privilege limited or revoked and may face further disciplinary action ~~and~~ **consistent with** Board policy, and/or civil or criminal liability. Prior to accessing or using Corporation Technology Resources and/or Information Resources, staff members must sign the Staff Technology Acceptable Use and Safety Agreement (Form 7540.04 F1). ~~() Staff members must complete a mandatory training session/program before being permitted to access or use Corporation Technology Resources and/or Information Resources and/or being assigned a school email address.~~ **[END OF OPTION]**

This guideline also governs staff members' use of their personal communication devices (PCDs) (as defined in Bylaw 0100) when they are connected to the Corporation's Technology Resources, creating, using or transmitting Corporation Information Resources, or while the staff member is on Corporation-owned property or at a Corporation-sponsored activity. Staff are reminded that use of PCDs (including the sending of text messages) may generate a public record or an education record that needs to be maintained in accordance with the Board's record retention schedule and/or Federal and State law.

Below is a non-exhaustive list of unauthorized uses and prohibited behaviors. This guideline further provides a general overview of the responsibilities users assume when using Corporation Technology and/or Information Resources.

- A. All use of Corporation Technology and/or Information Resources must be consistent with the educational mission and goals of the Corporation.
- B. Staff members may access and use Corporation Technology and/or Information Resources only by using their assigned account and may send only school-related electronic communications using their Corporation-assigned email addresses. Use of another person's account/email address is prohibited. Staff members shall not allow other users to utilize their account/email address and shall not share their password with other users. Staff members may not go beyond their authorized access. Staff members are expected to take steps to prevent unauthorized access to their accounts by logging off or "locking" their computers, laptops, tablets, and PCDs when leaving them unattended.
- C. No user may have access to another's private files. Any attempt by users to access another user's or the Corporation's non-public files, or voicemail or e-mail messages is considered theft. Attempts to gain access to unauthorized resources or data/information either on the Corporation's computer or telephone systems or any systems to which the Corporation has access are prohibited. Similarly, staff members shall not intentionally seek information on, obtain copies of, or modify files, data or passwords belonging to other users, or misrepresent other users on the Corporation's network.
- D. Staff members shall not intentionally disable any security features used on Corporation Technology Resources.
- E. Staff members shall not use Corporation Technology Resources or their PCDs to engage in vandalism, "hacking," or other illegal activities (e.g., software pirating; intellectual property violations; engaging in slander, libel or harassment; threatening the life or safety of another; stalking; transmission of obscene materials or child pornography, including sexting; fraud; and the sale of illegal substances or goods).
 - 1. Slander and libel. In short, slander is "oral communication of false statements injurious to a person's reputation," and libel is "a false publication in writing, printing, or typewriting or in signs or pictures that maliciously damages a person's reputation or the act or an instance of presenting such a statement to the public." (The American Heritage Dictionary of the English Language Third Edition is licensed from Houghton Mifflin Company. Copyright © 1992 by Houghton Mifflin Company. All rights reserved.) Staff members shall not knowingly or recklessly post false or defamatory information about a person or organization. Staff members are reminded that material distributed over the Internet is "public" to a degree no other school publication or utterance is. As such, any remark may be seen by literally millions of people, and harmful and false statements will be viewed in that light.
 - 2. Staff members shall not use Corporation Technology Resources to transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, national origin, sex, sexual orientation or transgender identity, age, disability, religion or political beliefs. Sending, sharing, viewing or possessing pictures, text messages, e-mails or other materials of a sexual nature (i.e. sexting) in electronic or any other form, including the contents of a PCD or other electronic equipment is grounds for discipline, up to and including termination. Such actions will be reported to local law enforcement and the Department of Child Services as required by law.
 - 3. Vandalism and Hacking – Deliberate attempts to damage the hardware, software, or data/information residing in Corporation Technology Resources or any computer system attached through the Internet is strictly prohibited. In particular, malicious use of Corporation Technology Resources to develop programs that harass other users or infiltrate a computer/laptop/tablet or computer system and/or damage the software components of a computer or computing system is prohibited.

Attempts to violate the integrity of private accounts, files or programs, deliberately infect the network or computers, laptops, tablets, etc., attached to the network with a "virus", and hack into any internal or external computer systems using any method will not be tolerated.

Staff members shall not engage in vandalism or use Corporation Technology Resources or their personal communication devices in such a way that would disrupt others' use of Corporation technology resources.

Vandalism is defined as any malicious or intentional attempt to harm, steal, or destroy data of another user, school networks, or technology hardware. This includes but is not limited to uploading or creating computer viruses, installing unapproved software, changing equipment configurations, deliberately destroying or stealing hardware and its components, or seeking to circumvent or bypass network security and/or the Board's technology protection measures. Staff members also must avoid intentionally wasting limited resources. Staff members must notify the building principal or _____ immediately if they identify a possible security problem. Staff members should not go looking for security problems, because this may be construed as an unlawful attempt to gain access.

4. [CHOOSE OPTION #1 OR OPTION #2]

[☒] [OPTION #1]

Use of Corporation Technology Resources to access, process, download, view, send, receive, distribute, display or print child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors, as defined by the Children's Internet Protection Act and I.C. 35-49-2-2, is prohibited. As such, the following material is prohibited: material that appeals to a prurient interest in nudity, sex, and excretion; material that depicts, describes or represents in a patently offensive way (with respect to what is suitable for minors) an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and material that lacks serious literary, artistic, political or scientific value as to minors. If a staff member inadvertently accesses material that is prohibited by this paragraph, ~~s/he the~~ staff member shall disclose the inadvertent access to the building principal or Superintendent immediately. This will protect the user against an allegation that ~~s/he the staff member~~ intentionally violated this provision.

[END OPTION #1]

[☐] [OPTION #2]

~~Staff members shall not use Corporation Technology Resources to access, process, download, view, send, receive, distribute, display or print prohibited material at any time, for any purpose. Staff members may access, process, distribute, display or print restricted material, and/or limited access material only as authorized below.~~

- ~~a. Prohibited material includes material that constitutes child pornography and material that is obscene, objectionable, inappropriate and/or harmful to minors, as defined by the Children's Internet Protection Act and I.C. 35-49-2-2. As such, the following material is prohibited: material that appeals to a prurient or unhealthy interest in nudity, sex, and excretion; material that depicts, describes, or represents in a patently offensive way (with respect to what is suitable for minors) an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and material that lacks serious literary, artistic, political or scientific value as to minors. Prohibited material also includes material that appeals to a prurient or unhealthy interest in, or depicts, describes, or represents in a patently offensive way violence, death, or bodily functions; material designated as for "adults only"; and material that promotes or advocates illegal activities.~~

- b. ~~Restricted material may be accessed by staff members in the context of specific learning activities for legitimate research and professional development purposes. Materials that arguably may fall within the description provided for prohibited material that have clear educational relevance, such as material with literary, artistic, political, or scientific value, will be considered to be restricted. In addition, restricted material includes materials that promote or advocate the use of alcohol and tobacco, hate and discrimination, satanic and cult group membership, school cheating, and weapons. Sites that contain personal advertisements or facilitate making online connections with other people are restricted unless such sites have been specifically approved by the _____.~~ **[NOTE: THIS PARAGRAPH CAN BE MODIFIED AS DESIRED BY THE CORPORATION.]**
- c. ~~Limited access material is material that is generally considered to be non-educational or entertainment. Limited access material may be accessed in the context of specific learning activities or during non-work times. Limited access material includes such material as electronic commerce, games, jokes, recreation, entertainment, sports, and investment.~~ **[NOTE: THIS LAST SENTENCE CAN BE MODIFIED AS DESIRED BY THE CORPORATION.]**

~~If a staff member inadvertently accesses material that is considered prohibited or restricted, **s/he** the staff member must disclose the inadvertent access to the building principal or _____ immediately. This will protect the staff member against an allegation that **s/he** the staff member intentionally violated the provision.~~

5. ~~The determination of whether material is prohibited, restricted, or limited access shall be based on the content of the material and the intended use of the material, not on the protective actions of the technology protection measures. () The fact that the technology protection measures have not protected against access to certain material shall not create the presumption that such material is appropriate for students to access. The fact that the technology protection measures have blocked access to certain material shall not create the presumption that the material is inappropriate for staff members to access.~~

[END OPTION #2]

Unauthorized Use of Software or Other Intellectual Property from Any Source – Laws and ethics require proper handling of intellectual property. Software is intellectual property, and, with the exception of freeware, is illegal to use without legitimate license or permission from its creator or licensor. All software loaded on Corporation computers must be approved by the Director of Technology, and the Corporation must own, maintain, and retain the licenses for all copyrighted software loaded on Corporation computers. Staff members are prohibited from using Corporation Technology Resources for the purpose of illegally copying another person's software. Illegal peer-to-peer file trafficking of copyrighted works is prohibited.

Online articles, blog posts, podcasts, videos, and wiki entries are also intellectual property. Staff members should treat information found electronically in the same way they treat information found in printed sources – i.e., properly citing sources of information and refraining from plagiarism.

- F. Transmission of any material in violation of any State or Federal law or regulation or Board policy is prohibited.
- G. Corporation Technology Resources shall not be used for private gain or commercial purposes (e.g., purchasing or offering for sale personal products or services by staff members). Advertising, political lobbying, or campaigning is prohibited. **[NOTE: THE BOARD COULD ALLOW LIMITED COMMERCIAL ACTIVITY BY STAFF MEMBERS; (e.g., sale of one of a kind items on staff intranet)]** ~~This provision shall not limit the use of Corporation Technology Resources by staff members for the purpose of communicating with elected representatives or expressing views on political issues. [NOTE: This option is legally correct, but it need not be included.]~~ (X) Staff members may use Corporation Technology Resources for -communication related to collective bargaining and union organizational activities.
- H. Staff members are expected to abide by the following generally accepted rules of network etiquette:

1. Be polite, courteous, and respectful in your messages to others. Use language appropriate to school situations in any communications made through or utilizing Corporation Technology Resources. Do not use obscene, profane, lewd, vulgar, rude, inflammatory, sexually explicit, defamatory, threatening, abusive or disrespectful language in communications made through or utilizing Corporation Technology Resources (including, but not limited to, public messages, private messages, and material posted on web pages).
 2. Do not engage in personal attacks, including prejudicial or discriminatory attacks.
 3. Do not harass another person. Harassment is persistently acting in a manner that distresses or annoys another person. If a staff member is told by a person to stop sending him/her messages, the staff member must stop.
 4. Do not post information that, if acted upon, could cause damage or a danger of disruption.
 5. Never reveal names, addresses, phone numbers, or passwords of students while communicating on the Internet, unless there is prior written parental approval or it is otherwise permitted by Federal and/or State law.
 6. Check e-mail frequently and delete e-mail promptly () to avoid excessive use of the electronic mail disk space **[END OF OPTION]**. Nothing herein alters the staff member's responsibility to preserve e-mail and other electronically stored information that constitutes a public record, student education record and/or a record subject to a Litigation Hold.
- I. All communications and information accessible via the Internet should be assumed to be private property (i.e, copyrighted and/or trademarked). All copyright issues regarding software, information, and attributions/acknowledgment of authorship must be respected.
- J. Downloading of information onto school-owned equipment or contracted online educational services is prohibited, without prior approval from the Director of Technology; all downloads must be to floppy disk. If a staff member transfers files from information services and electronic bulletin board services, the staff member must check the file with a virus-detection program before opening the file for use. Only public domain software may be downloaded. If a staff member transfers a file or software program that infects Corporation Technology Resources with a virus and causes damage, the staff member will be liable for any and all repair costs to make the Technology Resource once again fully operational.

K. **[CHOOSE OPTION #1 OR OPTION #2]**

[] [OPTION #1]

~~Privacy in communication over the Internet and through the Corporation's computer network is not guaranteed. To ensure compliance with these guidelines, the Corporation reserves the right to monitor, review and inspect any directories, files and/or messages stored on or sent/received using the Corporation's Technology Resources. Messages relating to or in support of illegal activities will be reported to the appropriate authorities.~~

[END OPTION #1]

[X] [OPTION #2]

Users have no right or expectation to privacy when using Corporation Technology and/or Information Resources. The Corporation reserves the right to access and inspect any facet of its Technology and/or Information Resources, including, but not limited to, computers, laptops, tablets, and other web-enabled devices, networks or Internet connections or online educational apps or services, e-mail or other messaging or communication systems or any other electronic media within its technology systems or that otherwise constitutes its property and any data, information, e-mail, communication, transmission, upload, download, message or material of any nature or medium that may be contained therein. A staff member's use of Corporation

Technology and/or Information Resources constitutes ~~his/her~~ the staff member's waiver of any right to privacy in anything ~~s/he~~ the staff member creates, stores, sends, transmits, uploads, downloads or receives on or through the Technology Resources and related storage medium and equipment. Routine maintenance and monitoring, utilizing both technology monitoring systems and staff monitoring, may lead to discovery that a staff member has violated Board policy and/or the law. An individual search will be conducted if there is reasonable suspicion that a staff member has violated Board policy and/or the law, or if requested by local, State or Federal law enforcement officials. Staff are reminded that their communications are subject to Indiana's public records laws and FERPA.

[END OPTION #2]

The following Notice will be included as part of the computer log-on screen:

[CHOOSE OPTION #1 OR OPTION #2]

[☒] [OPTION #1]

"Corporation Technology Resources (including computers, laptops, tablets, e-readers, cellular/mobile telephones, smartphones, other web-enabled devices, video and/or audio recording equipment, projectors, software and operating systems that work on any device, copy machines, printers and scanners, information storage devices (including mobile/portable storage devices such as external hard drives, CDs/DVDs, USB thumb drives and memory chips), the computer network, Internet connection, and online educational apps and services) are to be used for educational and professional purposes only. Users are reminded that all use of Corporation Technology Resources, including Internet use, is monitored by the Corporation and individual users have no expectation of privacy."

[END OPTION #1]

[☒] [OPTION #2]

NOTICE AND CONSENT FOR MONITORING

"Unauthorized or improper use of Corporation Technology Resources is strictly prohibited. Use of Corporation Technology Resources, including its computers, laptops, tablets, e-readers, cellular/mobile telephones, smartphones, other web-enabled devices, video and/or audio recording equipment, projectors, software and operating systems that work on any device, copy machines, printers and scanners, information storage devices (including mobile/portable storage devices such as external hard drives, CDs/DVDs, USB thumb drives and memory chips), the computer network, Internet connection, and online educational services and apps, must comply with the Board's Technology Acceptable Use and Safety Policy/Agreement. Corporation Technology Resources are provided for communication, processing, and storage of only school/education-related information and/or for authorized Corporation use. Corporation Technology Resources are subject to monitoring for all lawful purposes, (e.g., to ensure its proper functioning and management, to protect against improper or unauthorized use or access, and to verify the presence or performance of applicable security features or procedures and operational security), and individual users have no expectation of privacy.

Monitoring includes active attacks by authorized employees and/or agents of the Corporation to test or verify the security of the system. During monitoring, information may be examined, recorded, copied, and/or used for authorized purposes. All information, including personal information, stored on or transmitted through the system may be monitored. Such monitoring may result in the acquisition, recording, and/or analysis of all data communicated, transmitted, processed, or stored in this system by a user. Unauthorized or inappropriate use may subject you to disciplinary action and/or criminal prosecution. Evidence of unauthorized or improper use collected during monitoring may be used for administrative, criminal or other adverse action. Use of this computer system, authorized or unauthorized, constitutes consent to monitoring for these purposes."

[END OPTION #2]

- L. Use of the Internet and any information procured from the Internet is at the staff member's own risk. The Corporation makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through Corporation Technology Resources will be error-free or without defect. The Corporation is not responsible for any damage a user may suffer, including, but not limited to, loss of data, service interruptions, or exposure to inappropriate material or people. The Corporation is not responsible for the accuracy or quality of information obtained through the Internet. Information (including text, graphics, audio, video, etc.) from Internet sources used in class must be cited the same as references to printed materials. The Corporation is not responsible for financial obligations arising through the unauthorized use of its Technology Resources. Staff members will indemnify and hold the Corporation harmless from any losses sustained as a result of the staff member's misuse of Corporation Technology Resources.
- M. Disclosure, use and/or dissemination of personally identifiable information of minors via the Internet is prohibited, except as expressly authorized by the minor student's parent/guardian on the "Student Technology Acceptable Use and Safety Agreement Form."

N. [CHOOSE OPTION #1 OR OPTION #2]

[☒] [OPTION #1]

Proprietary rights in the design of websites, apps and services hosted on the Corporation's servers remain at all times with the Corporation without prior written authorization.

[END OPTION #1]

[☒] [OPTION #2]

Staff members own the copyright to works created outside the scope of their employment responsibilities and without the use of Corporation resources. Staff members may post such work on the Corporation website to facilitate access by students and/or staff. Notice of such posting and claim of ownership must be provided to the building principal or Superintendent. By posting such work on the Corporation's website, the staff member agrees to grant a non-exclusive license or permission for any staff or student within the Corporation to freely use such work. The Board shall own the copyright on any works created by staff members within the scope of their employment responsibilities.

[END OF OPTION #2]

- O. Staff members are reminded that student personally identifiable information is confidential and may not be disclosed without prior written parental permission.
- P. File-sharing is strictly prohibited. Staff members are prohibited from downloading and/or installing file-sharing software or programs on Corporation Technology Resources.
- Q. ~~(-) Staff members shall not use Corporation Technology Resources to establish or access web based e-mail accounts on commercial services (e.g., Gmail, iCloud, Yahoo mail, etc.).~~
- R. Since there is no central authority on the Internet, each site is responsible for its own users. Complaints received from other sites regarding any of the Corporation's users will be fully investigated and disciplinary action will be taken as appropriate.

S. Preservation of Resources: Corporation Technology Resources are limited. ~~(-) Because space on disk drives and bandwidth across the wires that connect Corporation Technology Resources (both internally and externally) are limited, neither programs nor information may be stored on the system without the permission of the _____.~~ **[NOTE: END OF OPTION]** Each staff member is permitted reasonable space to store e-mail, web, and school/work-related files. The Board reserves the right to require the purging of files in order to regain disk space.

T. **(X)** Staff members are ~~(-) required~~ **(X)** encouraged to limit student exposure to commercial advertising and product promotion when selecting/developing the Corporation or classroom websites, apps, and services or giving other assignments that utilize the Internet. Under all circumstances, staff members must comply with COPPA.

1. Websites with extensive commercial advertising may be included on the Corporation or classroom websites, apps, and services or designated as a required or recommended site only if there is a compelling educational reason for such selection.
2. Staff members may make use of high-quality, unbiased online educational materials that have been produced with corporate sponsorship. Staff members shall not make use of educational materials that have been developed primarily for the purpose of promoting a company and/or its products or services.

Abuse of Network Resources

Peer-to-peer file sharing, mass mailings, downloading of unauthorized games, videos, and music are wasteful of limited network resources and are forbidden. In addition, the acquisition and sharing of copyrighted materials is illegal and unethical.

Unauthorized Printing

Corporation printers may be used to print only school/work-related documents. Printers, like other school resources, are to be used in a responsible manner. Ink cartridges and paper, along with printer repairs and replacement, are very expensive. The Corporation monitors printing by the user. Print jobs deemed excessive and abusive of this privilege may result in charges being assessed to the staff member.

Any questions and concerns regarding these guidelines may be directed to the **Director of Technology or Superintendent**.
