

Technology Board Update

July 21, 2026

Steven Gingerich

- Roeing completed network maintenance in June as previously scheduled.
 - Equipment in critical wiring closets have been reconfigured for better use of physical capacity.
- Continuing to work with Dell regarding warranty status of Dell 3120 Chromebooks.
- Student 1:1 devices wiped and assigned appropriately K-12.
 - Conducting repairs on any Chromebooks that were identified upon turn-in as having functional damages.
- Completed Clever audits in order to prepare for resuming rostering sync processes once PowerSchool rollover has been completed.
