

Technology Board Update

August 11, 2026

Steven Gingerich

- Collaborated with Clever to resume syncing functionality ahead of 2026-2027 school year.
 - This will allow data for the new school year to be used for rostering digital curriculum and testing platforms
- Completed renewal of Filewave Volume Purchasing Program tokens, allowing for continued licensing, management, and installation of software on student and staff one-to-one devices.
- Performed renewal of Apple DEP certs, ensuring continued secure management of TCSC-owned equipment.
 - This renewal was completed ahead of schedule in order to shift the annual renewal during the summer, rather than during the school year to minimize risk of service interruption.
- Student one-to-one devices prepared for distribution.
 - Completed acquisition of components needed and performed repairs of student devices ahead of distribution.
 - THS Distribution began July 28th.
 - TES Distribution scheduled to commence August 5th.
 - Coordinating with TMS Administration for distribution during the first week of school.
