

A Message from your Student Nutrition team!

We are so excited to start another school year, see new (and returning) students/staff, and continue to grow the partnership between Tipton

Schools and Aramark toward enriching and nourishing the lives of our students as we grow empowered, future-ready learners, prepared for a lifetime of opportunity and success!

BOARD BRIEF

August 2026

Staffing and Equipment

We appear to be fully staffed at the moment and are still searching for substitute employees to bolster our ranks.

Unfortunately, we had a power surge/spike that damaged our freezer unit in the Middle School, and the entire freezer inventory was lost. We are working with Maintenance and IT toward a system that alerts us to temperature issues that would notify us in time to fix an issue like this and save the product.
